Sample Calculation	10 points
Results	10 points
Discussion/Conclusion	20 points
Citing/References	10 points
Format	10 points
Spelling/Grammar	5 points

- **All reports must be typed using a word processor and submitted on Blackboard in .PDF format. All text, tables, graphs and plot must be prepared using a word processor and spreadsheet software.**
- **Each student must write an independent lab report. Teamwork is encouraged to discuss labs and perform the labs physically. But each student is expected to write his or her own lab report. This is a learning process.**
- **Lab reports must follow the format given in the “Lab Report Guidelines”. This is a general guideline for lab reports used universally in scientific settings.**
